

# Avenue ceiling light

In stock

We believe that a perfect pendant light should not only be practical and spread lots of beautiful light around the room; it should also be stylish and eye-catching. We strive for a “wow” feeling in all of our pendant lights, and want the pendant light to be the first thing you see when you walk into a room – without it overpowering the rest of the decor. With the Avenue pendant light, we think we’ve achieved just that. With adjustable arms that can be set in three different positions, the lamp gets a new look every time you have people over, and you can set the lamp exactly how you want it. The matte gold colour makes the light discreet and provides a luxurious feel.

For the Avenue pendant light you need 12 light sources with a G9 fitting. The height of the pendant light is 92.5 cm (not height adjustable) and the maximum diameter is 90 cm. The diameter of the cover on the ceiling fixture is 12 cm. We recommend a dimmer for the lamp, so you can adjust the brightness as you wish. Check out the entire Avenue family if you want a complete set of pendant lights, table lamps and floor lamps of the same model.
