

MONARK | LAMP

bs.living 

The MONARK lamp responds to our desire to create a unique and innovative product. Its unique functionality lies in its switch which is the textile cord that fully belongs to the shape of the lamp. By simply pulling the cord towards the base, the lamp turns on or off. Thus, this switch does not alter the design of the lamp and offers a unique experience to the user. Lighting designed by the french young designer Léon De Coninck.

ref. LP-IV0026

STRUCTURE

POLISHED BRASS FINISH
CONCRETE BASE - BRASS AND
GLASS TUBE
GLASS Ø150

ELECTRICAL EQUIPMENT

INTEGRATED LED - 3000 K / 540LM
2 - IP20
INTEGRATED DIMMER

DIMENSIONS IN MM

HEIGHT : 677
DIAMETER : 170
