# Essence of Elegance

*Celebrating a decade of WOUD*

Every season, we unveil new creations, including new product families and expansions of our beloved existing series. For us, it is not about crafting mere seasonal items, it is about weaving these new designs into the tapestry of the comprehensive WOUD collection. Each piece tells a story, contributing to the evolving narrative of our design journey, now spanning 10 years.

Our designs are thoughtfully handpicked to curate a harmonious collection, embracing our vision of honest, timeless pieces with meticulous attention to quality. Creating designs that remain relevant over time. Our versatile collection showcases earthy and neutral tones selected to effortlessly harmonise with any colour scheme - often characterised by clean lines, classic shapes and intuitive functions. Ensuring longevity and reducing the need for replacements as trends come and go.

With our 2024 novelties, we continue the story of timeless aesthetics and enduring elegance by introducing a celebration of refined materials, soothing colours, together with WOUD's 10th Anniversary. Designs we invite you to embrace as cherished additions to your home, gradually becoming an integral part of creating that warm, comforting feeling of home.

# Soma dining chair

*Designed by Kasper Nyman*

Designed with attention to the essentials and an appreciation of the material, the design of the Soma dining chair is rooted in the classic Scandinavian design heritage with a new interpretation of sophistication and simplicity. The sleek lines of the seat and back are comfortably embraced by the roundness of the legs and the elegant joints. Forming harmonious proportions.

## Materials

Soma dining chair designed by Kasper Nyman

# Soma chairs

*Designed by Kasper Nyman*

The harmonious Soma series has been extended to include elegant versions designed for bar and counter heights. With the new additions, Soma continues to bring a timeless presence and softness to any contemporary space. The sleek lines of the seat and back are comfortably embraced by the roundness of the legs and the elegant joints. Created using traditional techniques, the design of Soma is rooted in the classic Scandinavian design heritage with a new interpretation of sophistication and simplicity.

# Frame dining chair

*Designed by Mario Tsai*

The Frame dining chair draws its inspiration from the precise outlines of scaffolding seen around buildings. Designer Mario Tsai envisioned transferring this structural framework from the building industry into the realm of furniture, resulting in a soft, minimalist chair. Mirroring the scaffolding's characteristic horizontal and vertical lines, the chair's outer frame complements its plush upholstery. Designed to align with the human body's contours, the sleek backrest and seat offer a comfortable seating experience, adding a touch of softness to any ambience.

## Materials

# Mono chairs

*Designed by Kasper Nyman*

The Mono series stands out with its beautiful and unique joint work, seamlessly uniting the seat with its sleek and clean aesthetics. Inspired by the concept of folding wood as effortlessly as paper into a cone shape, its oak veneer construction lends Mono a delicate and sophisticated appearance. This design is deeply anchored in the Scandinavian tradition, offering a light yet expressive testament to minimalist elegance.

# Slalom step stool

*Designed by Studio DEJAWU*

Capturing the dynamics of sinuous slalom traces, the Slalom step stool is beautifully shaped by smoothly bent metal legs that embrace solid oak planks. Its minimalist form combines the sturdiness of the frame with the softness of the steps, bringing comfort and reliability to the design.

Slalom seamlessly blends form and function. With its portable nature, it effortlessly serves as an assistant for reaching the top shelves in the wardrobe, a companion for children in the kitchen or a convenient side table by the bed.

## **Materials**

# Level daybed

Designed by MSDS Studio

Level is made from high-quality materials. The daybed uses the iconic form of sawhorses in the simplest arrangement possible: A sheet laid across a pair topped with a rectilinear mattress. Combine the white pigmented or black painted oak frame with your preferred leather or fabric mattress to make it a perfect match for you.

## Materials and details

Solid white pigmented lacquered oak/black painted oak frame

Aniline leather or bouclé fabric (Alpine, Textafoam) mattress.

Non-slip fabric underneath the mattress

Add a pillow for extra comfort. Sold separately

# Praline poufs

Designed by Beaverhausen

Drawn from an outline of small, filled chocolates, the Praline pouf forms a well-composed and bold silhouette that appears instantly recognisable. With its neat stitching details, the soft top invites you to take a comfy seat yet it remains flat enough to serve as a convenient tray holder.

This fully upholstered pouf welcomes generous contours and a versatile design, ensuring it finds the perfect place in your home. Place it in front of your sofa for your feet to rest, in the hallway for easy shoe changing, aligned with the bed, or use it as an adaptable seating solution for guests when in need of an extra seat.

## Materials

Wooden frame, foam (FR foam upon request) and upholstery (all fabric price groups, COM and leather upon request)

## Details

Praline in sizes 52cm and 78cm are available as stock items in the fabric *Alpine 01 Neutral* for quick shipping. If you can wait for your new Praline a little longer, you can go with our wide array of fabric choices, ranging from luxurious textures to vibrant colours.

# Meadow lounge chair

*Designed by Finn Hvidberg Nielsen*

Designed to be a statement, an eye-catcher and simultaneously offer leisurely comfort, the Meadow lounge chair communicates a strong visual, modern design. Meadow is characterised by amiable organic shapes and curvy lines. Made from high-quality foam, the lounge chair persuasively portrays a solid yet soaring silhouette, while it offers a comfortable seating experience. A comfort that is enhanced by its wide seat combined with the lightly swaying metal frame. Constructed to support the movement of the human body and to stay relevant and beautiful for years to come.

## Materials

Upholstery (all fabric and leather price groups and COM), plastic feet

Moulded foam (FR foam upon request)

# Collar sofa series

Designed by Meike Harde

Using voluminous curves and askew arranged back cushions, Collar reinterprets classic sofa design into a contemporary appearance. Delta shaped sides perfectly support the cushion in a wide-angle for comfortable lounging. Combined with the low backrest, the continuous back cushion functions like a collar and when sinking into the carefully selected soft memory foam, you achieve the feeling of a soft and deep hug. Creating a comfortable hideaway.

## Materials

Wooden frame, memory foam (FR foam upon request), fabric (all fabric price groups and COM) with black painted metal legs. Pre-mounted metal snap connectors for easy installation

## Details

Collar are available as stock items in four selected fabrics for quick shipping: *Barnum (colour 11 and 24)* from Nevotex and *Cyber (colour 2101 and 1101)* from Gabriel  
All sofas come with two cushions while open-end modules come with one cushion included

# Nakki Lobby

*Designed by Mika Tolvanen*

Consisting of five modular modules and a mountable table, Nakki Lobby allows an unlimited number of combinations. Use the corner modules for both right and left corners or as stand-alone modules to create a personal and intimate space. Make the armless middle module extend the sofa and let it form a dynamic and organic shape winding through the room by combining it with the ottoman.

# Ludo dining table

*Designed by Steffensen & Würtz*

Ludo is a visually strong pillar dining table that embodies the beauty of simplicity and balance. Inspired by the concept of pure geometric shapes, its convex and concave forms harmoniously converge in a pedestal base.

The stringent and minimalistic shape immediately draws the eye while it creates a focal point that adds a touch of modern sophistication. Showcasing an artistic look. Seamlessly blending function and aesthetics, the wooden round top and centred base provide ample legroom and easy accommodation for additional guests. Forming an inviting setting for meaningful conversations and cosy, inclusive dinners, where everyone at the table can easily engage with one another.

## Materials

White pigmented lacquered oak/matt lacquered walnut veneer tabletop

Black painted oak and metal base (smooth surface)

**Ludo dining table**

Ludo dining table designed by Steffensen & Würtz  
Soma dining chairs designed by Kasper Nyman  
Annular pendant designed by MSDS Studio  
Kyoto rug designed by AD Miller

# Tree dining table

*Designed by Elisabeth Hertzfeld*

The metallic legs, ramifying like the branches of a tree, make the Tree dining table a sleek and graphic design. Each leg is made of two steel tubes rising first side by side before their path separates to support the tabletop in several places. Creating an arborescent pattern, inspired by the lightness trees create rising in vertiginous heights.

Like a bundle of stems, the legs lift the circular top illustrating the leafy canopy. While the round shape invites to conversation and gatherings with family and friends.

## Materials

Charcoal black Fenix laminate/beige Fenix laminate tabletop  
Black painted metal legs (smooth surface)

# Tree console table

*Designed by Elisabeth Hertzfeld*

Taking inspiration from the forests around Paris, Tree is designed to translate the designer, Elisabeth Hertzfeld's, experienced lightness of how trees effortlessly rise in vertiginous heights. The thin metal legs form an elegant and graphic design with its two steel tubes rising from the ground and separating to support the tabletop, making the Tree console a light design, perfect when decorating a minimalistic home.

Use the low version as a console table in the hallway or the tall table as a high workstation that easily can be integrated in your home. It is possible to add a shelf to install under the tabletop for additional storage of magazines, papers or desk tools.

## Materials

Charcoal black Fenix laminate/beige Fenix laminate/verde comodoro Fenix laminate table top

Black painted metal legs (smooth surface)

## Details

Available in two heights

For storage, a suitable shelf can be added

# Piezas dining table

*Designed by Silvia Ceñal*

The Piezas dining table elegantly combines wood and metal created to provide a sense of simplicity and a strong silhouette. Inspired by the simple gesture of fitting one piece of a toy into another, which recurs in the feature of the tabletop embedded in a metal frame.

## Materials

# Arc tables

*Designed by Ditte Vad and Julie Begtrup*

The Arc table invites its user to make use of its simple functionalities. By simply rotating half of the circular top, the expression of the table is ever changeable. Use one finger to turn the upper tabletop and let it be open with your favourite objects on display or close it to hide your mess. The muted dark grey surface on the inside storage space is selected to complement the wood while the three-legged construction adds a playful and light touch to the geometric shaped design.

## **Materials**

# Parallel coffee table

*Designed by Magnus Pettersen*

Inspired by the display showcases found in museums, the Parallel coffee table plays with the integration of curated galleries in the home. By leveraging glass, the space between the horizontal planes serves as an aesthetic exhibition area for books and decorative objects in the living room.

Deriving its name from the mathematical concept, the shape comprises two horizontal, parallel table tops supported by a perpendicular construction of parallel lines. This creates a harmonious cross pattern beautifully complemented by rounded edges. Resulting in a visually light and graphical expression.

## Materials

White pigmented lacquered oak veneer frame (FSC™ Mix Credit)  
Tempered glass table top (10 mm) and silicone caps

**Parallel coffee table (90x90)**

L 1200 x W 600 x H 350 MM  
L 47.2 x W 23.6 x H 13.7 "

# TABL side table

*Designed by Roel Vandebeek*

Designed with the HIDN design approach in mind, TABL is a graphic metal side table designed from the idea of optimising material by providing the design with a new function without adding additional material.

A circular part of the classic cylindrical base has been cut out and transformed into a functional tabletop. Consequently leaving a round, open space in the foundation for storage of books, throws or creative pursuits. Distinctive and stringent, the strong visual silhouette will suit various arrangements.

## Materials

Ivory/grey beige painted metal (smooth surface)

# Come Here side table

*Designed by Steffen Juul*

Grab the Come Here side table and place it wherever you like. Inspired by the Scandinavian design traditions, Come Here embraces softness and high-quality material. The sidetable is a beautiful and simple three-legged construction. One of the legs is extended through the tabletop and functions as a handle making it easy to move around. Use it as a bedside table, have it next to the sofa or as a companion in your favourite reading corner.

## Materials

# Soround occasional tables

Designed by NUR Design

Soround is a simple, sleek and modern take on a occasional table. The construction with the softness of the circular tabletop and the elegant black table legs forms a new interpretation of the classic coffee table. The Soround series comes in different sizes and heights, which allows for overlapping structure. Combine different materials and create distinctive expressions that match your style.

# Sentrum side table

*Designed by Schmahl+Schnippering*

Let the Sentrum side table take a central spot in your home. This table is designed to interact and integrate seamlessly into your daily life. Following the principle of simplicity, the design has been stripped of all unnecessary elements, leaving behind a strong base and a geometric expression focused on pure functionality.

The unique S-shaped construction not only makes it the center of attention but also enhances usability. It creates dual storage spaces on both sides, ideal for magazines and books, making the Sentrum side table both a stylish and practical addition to any room.

## Material

# Duo side table

*Designed by Chifen Cheng*

Duo is inspired by the term 'vesica piscis'; meaning the shape of two overlapping circles with the same radius. The idea of the designer, Chifen Cheng, was to convert the geometric composition into a table while capturing a glimpse of light.

The metal frame supports the two tabletops, which makes the Duo side table simultaneously delicate and steady while offering an appearance of tranquillity. With its thin and elegant construction and smoked glass top, the side table creates a light expression.

## **Materials**

L 20.0 x W 23.6 x H 20.0 "

# La Terra occasional tables

*Designed by Agnes Morguet*

The La Terra table is harmonious and sophisticated. Inspired by nature, the design beautifully embraces the organic shapes and muted colours of soft pebbles in the landscape. The infinite variants of the natural stones are reflected in the three smooth, floating shapes of the tabletop, which make a subtle contrast to the sleek crossing black metal frame.

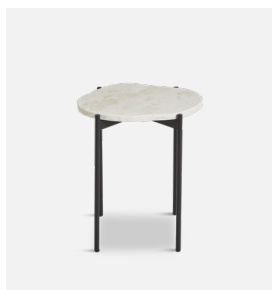

Made from travertine, every surface is unique as the play of colours varies in the natural material. With three different available sizes and heights, the table can be placed as a single piece or entire landscapes can be created.

## Materials

# Array sideboards

Designed by Says Who

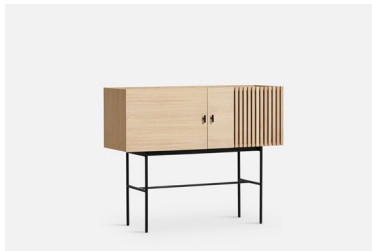

This series of sideboards is inspired by the wooden slate cladding found in modern architecture. With its geometric shape and horizontal slates, Array creates a strong visual effect by catching both light and shadow. The sleek legs lift the sideboards from the ground, creating an elegant contrast between the solid wooden cabinet on top and the thin metal construction underneath.

# Array low sideboards

*Designed by Says Who*

Like the rest of the Array series, the low sideboard has an airy and floating appearance. Available with either a low metal frame or as a wall-mounted unit. The design is architecturally versatile and ideal as a TV-unit in the living room, storage space in the entrance, or as a decorative design element in your favorite spot. Hanging on the wall, Array leaves spaces on the floor and adds lightness to the solid wooden cabinet.

# Utility shelf

*Designed by Thackeray West*

With a vision of combining the function of a cupboard and the lightness of an open shelving unit, the Utility shelf forms a versatile design, which is characterised by its soft curves and arches. Made of the natural oak material, Utility communicates an honest design. A design language that is beautifully enhanced through the exposed wooden construction, revealing the unique grain structure.

The two compact shelves with three sides encourage you to contain and display both aesthetic pieces and convenient objects that should be easily accessible during the day. Whether that be towels in the bathroom, tableware in the kitchen or scarves and gloves in the hallway. Emphasising true utility.

## Materials

Solid white pigmented lacquered oak/painted oak frame  
Oak veneer shelves

## Details

300 mm/11.8" between shelves. Max 40 kg on each shelf

# O&O rack

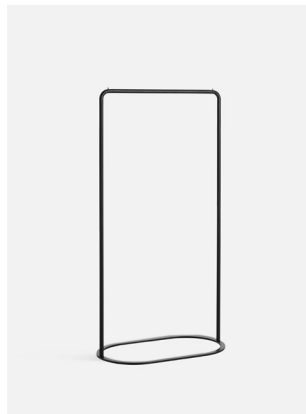

*Designed by Christine Rathmann*

When two become one. Or vice versa. A vision that forms the basis of the design's distinctive feature and name. O&O is inspired by two different-shaped O-rings that belong together and can be arranged as desired in a variety of positions. The two separate elements, in different heights and widths, rise from the ground as a sleek but stable construction.

Living a life close to Scandinavia has become a source of inspiration for the designer of O&O rack, Christine Rathmann. The clean lines of the Scandinavian design tradition are the essence of her designs, including O&O. Pure and timeless.

## Material

Black painted metal (smooth surface)

# Töjbox wardrobe

*Designed by Made by Michael*

It is the little details that give Töjbox its character. Töjbox is a simplistic and functional wardrobe made of oak. Its pure wood construction, makes the wardrobe easy to assemble and put to use. Use the clothes rack to hang your shirts and jackets and store your everyday belongings or favourite decorations in the box. The angled legs leaves space on the floor for shoes and bags.

# Virka sideboards

*Designed by MOAKK and Røpke Design*

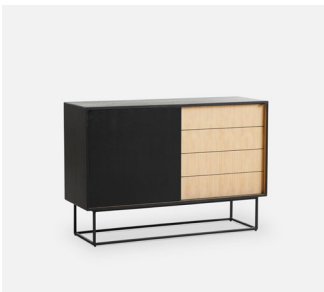

The Virka sideboard, defined by its clean lines and simple expression, seamlessly integrates into a consistent design language or stands out as a striking standalone piece. Designed with space efficiency in mind, this elegant sideboard features sliding doors to conserve room space. Its robust geometric frame gracefully elevates the sideboard off the floor, imparting a sense of lightness and sophistication to the design.

# Tray shelf

Designed by Hanne Willmann

Tray Shelf is Japanese in its elegant expression and German in its solid and thorough construction. Designed to create various possible arrangements of the trays, making the shelving system dynamic and personal. Take the trays and place them on the different levels in the metal frame until you have the arrangement and expression you like. Gaps in the shelving system are created by moving the small trays, which allow taller objects to be placed in the open space.

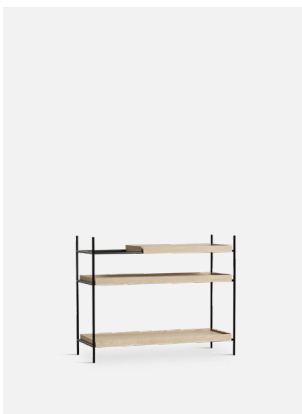

## Materials

White pigmented lacquered oak/black painted oak/walnut trays  
Black painted metal frame (smooth surface)  
Black, adjustable feet

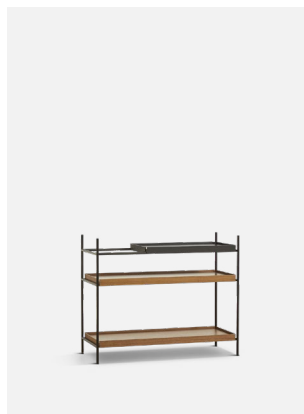

## Details

Choose from 24 different tray configurations including low and high versions  
Two wide and one short trays for the low shelving system  
Four wide and two short trays for the tall shelving system  
Safety leather strap included for mounting to the wall

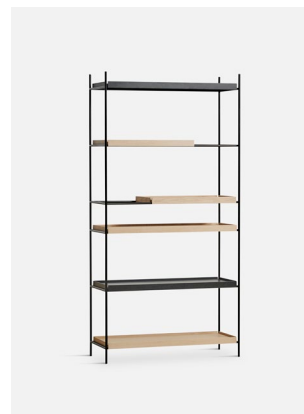

## Examples of configurations

**Tray shelf (low)**

# Elevate modular shelving system

*Designed by Camilla Akersveen and Christopher Konings*

Elevate is a modular shelving system with endless possibilities. With different shelves, dowels and panels, Elevate can be expanded and assembled in unlimited number of permutations without the use of any tools. Just stack the shelves, tighten the dowels and then elevate it. The different elements are boxed individually in order for you to customise the exact shelving you want.

## Materials

White pigmented lacquered oak/black painted oak veneer shelves and panels  
Solid white pigmented lacquered/black painted oak connectors

## Details

Choose between predefined systems or customise your own  
Metal bracket for mounting the system to the wall is included  
Maximum weight capacity on each shelf: 15 kg

# Elevate online configurator

*Build and visualise your own shelving system online*

The potential of the Elevate shelving system lies in its versatile modularity, enabling limitless creative configurations. With our interactive [3D configurator](#), you can explore and discover numerous permutations easily.

**Delve into customisation with the Elevate online configurator, providing**

- Personalisation of predefined systems
- An option to start with a blank canvas for personal designs
- Visualisation of diverse combination possibilities
- Flexibility in rearranging and experimenting with layouts
- Customisable dimensions for length and height to ensure a perfect fit
- Visualisation of a variety of finishes including white pigmented lacquered oak, black painted oak or a mix
- Access to a complete parts list, dimensions and prices during the design process

**Examples of custom-built shelving systems in the online configurator**

# Bricks modular storage system

*Designed by Ditte Vad and Julie Begtrup*

The Bricks series is a refined storage system that emphasises Scandinavian design traditions through fine craftsmanship and minimalistic aesthetics. The simple modular cubes encourage the creation of a personal arrangement. Build it brick by brick and create a changeable storage setting, a room divider, a wall-mounted bookcase, a side table or a display for objects.

## Materials

White pigmented lacquered oak/black painted oak veneer

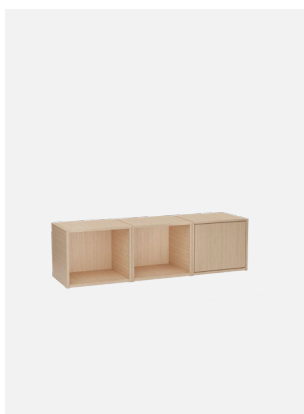

## Details

# Stedge shelf

*Designed by Leonard Aldenhoff*

Introducing the Anniversary Edition of the Stedge Shelf with exclusive brass wires to the existing Stedge family. A celebration of WOOD's 10th birthday in 2024. With the addition of brass details, this special edition exemplifies the timeless elegance of the original sophistication that marks a decade of WOOD. Being a true WOOD classic, the Stedge Anniversary Edition embraces purism and refined design through its solid oak shelves, fine edges and delicate brass wires.

## Materials

White pigmented lacquered solid oak/smoked solid oak/black painted solid oak  
Black painted metal/brass wires

## Details

Mounting template included. Max 10 kg on each shelf. Short and long wire included

# Wallie wall drawer

*Designed by Amalie Skov Rahbæk*

A new colour combination has been added to the Wallie family. The multifunctional wall drawer is now available in a beige finish paired with a bent white pigmented oak drawer, giving it a light and balanced appearance. Splendid for Scandinavian-inspired spaces.

With its circular, soft shapes and small storage space, Wallie is both minimalistic and functional. A small shelf, a drawer and an aesthetic object in one.

## Materials

Black/grey beige painted metal bracket

White pigmented lacquered oak/black painted oak/walnut veneer drawer

## Details

Magnet encased on the backside of the drawer. Maximum weight capacity: 5 kg

Wallie wall drawer

## Input organiser

Designed by Anne Holm and Sigrid Smetana

Input is a flexible organiser with eight movable boxes in different dimensions and shapes. Allowing you to create the exact expression you want - matching your needs and taste. The softness of the oak complement the graphic and angular lines of the organiser and pockets. The design is a perfect solution to organise small everyday essentials in the hallway, office or bedroom.

<b>Materials</b>	White pigmented lacquered solid oak and brass screws
<b>Details</b>	Eight different sized pockets

L 25.9 x D 2.2 x H 17.3 "

## Hoop rack

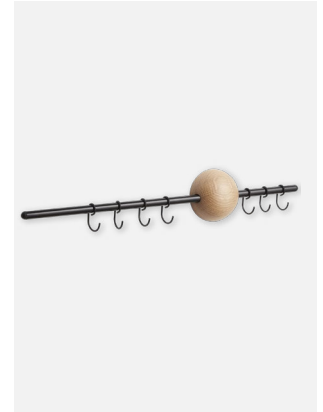

Designed by Jeanette Holdgaard

The versatility of Hoop also shows in the functionality. Together with the minimalistic design, the rack can be used for multiple purposes. Place it in small spaces like kitchens to hang tea towels and kitchen utensils or the hallway to store and display bags together with jackets. Slide the rack through the centerpiece and choose between three different positions.

<b>Materials</b>	Solid black painted oak/white pigmented lacquered oak and black painted metal
<b>Details</b>	Adjustable centerpiece. Seven hooks included

## Knaegt coat rack

Designed by Rikke Palmerston

Knaegt is a coat rack and hat shelf in combination with elegant aesthetics. The simple repetition of wooden sticks with a leather cord passing through makes the coat rack dynamic as the line created by the sticks change depending on what is hung on the rack while each stick functions as a hanger. Knaegt is flat-packed for easy transportation.

<b>Materials</b>	White pigmented solid oak/black painted oak, leather and brass screws
<b>Details</b>	Maximum weight capacity: 10 kg

# Annular pendants

*Designed by MSDS Studio*

Annular is a contemporary pendant characterised by its innovative use of LED, designed with a clean silhouette to remain relevant and appealing as trends evolve. With an artful fusion of two elemental forms, Annular captivates with its conical shade symmetrically paired with a perfect ring of light at the perimeter.

The ring-shaped light source is both boldly graphic and resolutely sophisticated, lending a pleasant and coherent light to the pendant. Complemented by its timeless and versatile colour scheme, the design creates a soothing and inviting atmosphere, resulting in a seamless and clean expression.

## Materials

# Stone pendants

Designed by Philip Bro

The lovely Stone pendant is now introduced in a new size. With the larger size, the pendant not only allows for a captivating presence but also provides a more substantial source of illumination, offering versatility in placement throughout your spaces. Embodying soft shapes and a minimalist expression, Stone draws inspiration from the gentle forms of beach stones, shaped over time by the elements of water, sand and wind.

# Gap pendants

*Designed by NUR Design*

The Gap pendant artfully blends a rugged metal exterior with a delicately brass-coloured interior, casting a warm, cosy glow. Its distinctive design features a sleek gap that allows light to escape, creating a striking graphical reflection enhanced by the golden hue from within. Whether hung solo or grouped with additional Gap pendants, this piece amplifies the ambience, inviting an enriched experience of its unique, glowing reflection.

# Dot pendants

*Designed by Rikke Frost*

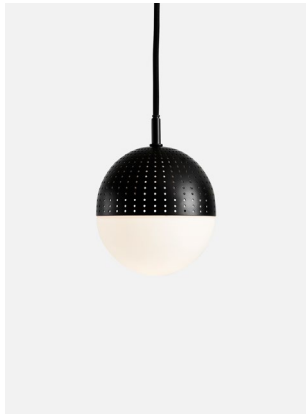

The Dot pendant is designed to create a cosy atmosphere in your home. It is inspired by perforated metal and the patterns the light creates when shining through the little holes. Seen from a distance, the light weight Dot pendants hover in the air resembling dainty dots in the room, while the contrast between the coarse perforated metal and the smooth glass creates a simple and significant pendant.

# Cono lamps

*Designed by Benny Frandsen*

Cono is characterised by the classic geometric shades combined with a minimalistic yet soft visual expression. An aesthetic that is enhanced by the matt silky surface. The adjustable shade provides a functional light, creating a reference to a focused spotlight from a stage. These classic geometric shaped shades are reflected in the name, Cono, inspired by the mathematical form; conoid

## Materials

Painted/satin plated metal (smooth surface)

Light grey painted metal inside the shade

# Ghost lamps

*Designed by Studio Kowalewski*

The design of Ghost contributes to a pleasant atmosphere. Its soft light shows the pure lines of the lamp when shining through the matt opal glass, enhancing all the little details.

Made of translucent opal glass, the lamp shade creates an illusion of a white cloth thrown over a light source. Resembling the appearance of a friendly ghost when lit up in the dark, a sculptural character that states the name of the lamp; Ghost.

## Materials

Opal glass shade

# Tangent table lamp

*Designed by Frederik Kurzweg*

Tangent table lamp arose from an experimental study with tubes and proportion and how these can be joined together. A clean graphical design where two steel tubes meet at their tangential point of contact.

The small tube provides space for the electrics while the large tube functions as the lamp shade. On top of the inner metal tube is a shade made of opal glass that covers the bulb creating a soft light when turned on and a visual effect of one cylindrical tube when turned off.

## Materials

Painted metal outer shade (smooth surface)

Opal glass inner shade

# Nova table lamp

*Designed by 201 Design Studio*

Nova is a decorative and sculptural table lamp. The rounded, airy glass shade seamlessly flows into a solid, refined core that widens towards the base. Balancing the aesthetics of delicate glass with natural, robust materials while creating a visually well-proportioned symphony. Its flattened design not only forms a characterful shape that changes with the angle of view but also serves a functional purpose. This feature allows the lamp to occupy less space, making it ideal for bookshelves, windowsills, nightstands, and desks.

On the back, the Nova table lamp features a turnable brass knob that allows you to easily turn on, dim and turn off the light to create the desired mood.

## Materials

Opal glass shade

# Pump lamps

*Designed by KUTARQ Studio*

Pump draws inspiration from the enchanting world of hot air balloons, capturing the essence of a luminaire lifting off the ground and floating effortlessly in the air. Its light tubular steel structure mirrors the propulsion of a rocket, emphasising the shade's levitating effect.

The Pump lamps, with their soft opal glass, are perfect for cosy nooks and smaller spaces where a pleasant, inviting light is desired. Whether that be on the desk, nestled in a shelving system, or in hanging in the reading corner.

# Dew table/wall lamp

*Designed by Saif Faisal*

Formed by a glowing ellipsoid opal glass, resting on a soft solid wood tray, the Dew lamp is a contemporary take on archetypal lanterns. A shape inspired by the early morning dew laying on the leaves. Being a multifunctional object, Dew is designed to serve different purposes with ease to blend into the modern pragmatic lifestyle.

With its portable character, the versatile piece functions both as a dynamic table and wall lamp, while its dimmable feature allows you to change the mood and intensity of the light to suit the specific setting. Place it on a desk, use the tray for your pieces of jewellery or hang it on the wall to provide an inviting light with no need for an electrical supply.

## **Materials**

White pigmented oak/black painted ash base

White opal glass

## **Details**

Charging cable (USB C) included

8 hours operating time when fully charged

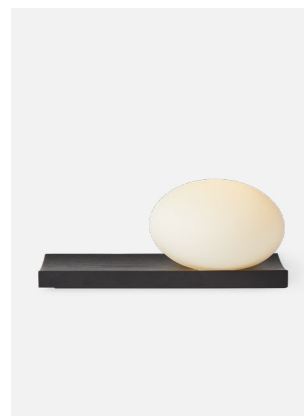

Dimmer switch on the base (three levels)

## Lunar pendant

Designed by Johanna Hartikainen

The Lunar pendant is an elegant combination of soft, glowing opal glass and sleek black metal inspired by the night sky. Embracing modern architectural design while honouring the ancient astronomical observations. The minimalistic design and sculptured form make Lunar a delicate, distinctive piece above the dining or coffee table, both individually and in clusters.

<b>Materials</b>	Black painted metal and opal glass

# Kyoto rugs

*Designed by AD Miller*

The hand-tufted wool rug, Kyoto, takes its inspiration from the distinctive pattern found in traditional raked Japanese rock gardens. Designed in the sphere of Japanese aesthetics and Scandinavian design, the rug communicates a shared simplicity and honesty.

The rug comes in different sizes and shapes, each with an individual design. Available in natural tones, Kyoto provides a complementing base for a furniture setting while also bringing a sense of the textured landscape inside.

## Materials

80% wool, 20% cotton

## Details

# Kyoto rugs

*Designed by AD Miller*

Crafted with a focus on tactility, the thick tufted rug ensures a comfy thread that makes you feel grounded. A feeling that represents the source of inspiration for the rug.

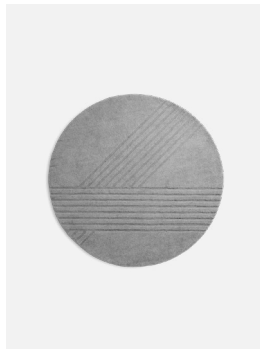

The design of this rug, with its minimalistic linear cut piles, creates a subtle sense of movement, reminiscent of water ripples. Its purpose is to infuse your space with the tranquility of Zen gardens. The rug's rounded shapes radiate stillness and balance, making it an ideal complement to a round dining table or a perfect fit in front of your sofa.

# Rombo rugs

*Designed by Studio MLR*

Rombo, a series of rugs designed by the Danish Studio MLR, is distinguished by its material composition and patterns. The blend of wool and jute results in a robust surface, while the woven construction showcases small, distinctive rhombi patterns, which inspired the series' name. Elegantly bordered with straight lines at both ends, the rugs create an elegant contrast between colours and patterns. The Rombo series offers various sizes, including small, large, and runner rugs, fitting diverse spaces and styles.

## Materials

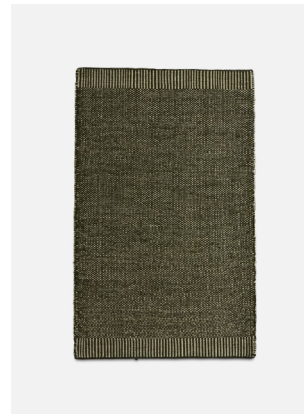

65% wool, 35% jute

# Tint rugs

*Designed by Shazeen*

Tint is a tightly tufted rug designed to create a pleasant atmosphere. The play of colours varies depending on the inflow of light and how the loops face each other forming sophisticated nuances. With the softness and sound-reducing effect, the contemporary rug pleases the senses. At the same time, the rectangular shape defines and delimits a zone from the rest of the space. Creating a comfortable and domestic spot. The different sizes are intended to suit various types of spaces and serve diverse purposes.

## Materials

80% bamboo silk, 20% cotton

# Serene jars

*Designed by Saif Faisal*

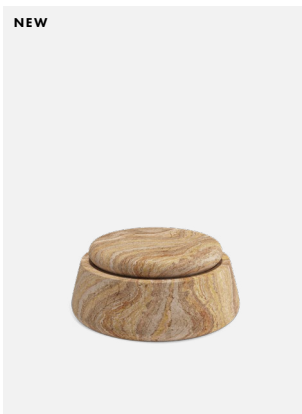

Crafted from solid natural stones, the Serene jars embody an authentic choice of genuine materials, establishing a tactile connection to nature. With a design that evokes tranquillity and relaxation, the jars effortlessly blend sculptural simplicity with boldness. Defined by the rounded, cylindrical shapes, the two heights form a modern pair. Place these decoratively versatile jars on your kitchen tabletop, as visually appealing objects on a shelf, or in the bathroom to store jewellery in the low version and cotton buds in the high one.

# Mountain objects

*Designed by Tina Schmidt*

Designed by the Danish designer, Tina Schmidt, Mountain is beautifully formed in solid travertine. An artistic decorative piece, that abstractly captures the graphic outline of the great mountains in nature. Representing the feeling of presence and equanimity.

Mountain comes as a magazine holder and a paperweight. The sleek magazine holder encourages you to store or display your favourite magazines and coffee table books. While the paperweight is great to set on top of books or as a sculptural object in a shelving system.

## **Material**

Solid light grey travertine

# Jeu de dés candle holders

Designed by Oleg Pugachev

The Jeu de dés candle holders demonstrate true versatility by showcasing a surprising interplay of smooth geometric shapes. With their various opportunities for adding different candles or using them as an aesthetic sculpture, the elegant objects allow you to have a playful approach while styling them to personalise your own composition.

Combine the different sizes, turn them as you like and let them create a homely feel in the room, making them admirable accessories for your shelves or coffee table.

## Materials

Black/brown/green solid marble

## Details

No. 1: 1 x tea light (Ø 40 mm) + 1 x taper candle (Ø 20 mm)

# Arkiv bookend

*Designed by Ella Shegai*

Together with a row of books Arkiv forms a small graphic ensemble of arches and blocks.  
Inspired by the function and aesthetic of the classic architectural arches and columns.

With its vivid shape, the bookend catches the light and throws harmonious shadows revealing a fascinating and delightful piece to the eye. Lean your favourite books against Arkiv, lay it horizontal to function like paper press or use it as a decorative piece of art.

## **Material**

Solid concrete

150137 Concrete

D 80 x W 150 x H 205 MM

D 3.1 x W 5.9 H 8.0 "

# BOOKND bookend

*Designed by Roel Vandebek*

Made of smooth, solid marble, Booknd communicates an immediate and naturally beautiful aesthetic. With its graphic forms, the bookends emphatically combine soft, cylindrical shapes with consistent, straight lines, resulting in two decorative objects that have a visible mutual relationship.

With the HIDN approach, the Booknds both optimise the material and process while illustrating a transparent connection. Although the Booknds are separated by books, they will always be visually connected, which strongly enhances the unity of the objects.

## Materials

Brown/green/black solid marble

## Details

# Monolith incense holder

*Designed by Oleg Pugachev*

Monolith invites you to immerse yourself in a world where design converges with contemporary relevance, where products possess sensuous aspects, and where functionality embraces the modern way of life, focusing on relaxation, quiet contemplation and well-being.

Designed with the HIDN design approach in mind, the cylindrical holder is directly cut from the block, leaving a hollow centre to vertically place the cut marble piece. Furthermore, clever use of counterweight and friction holds the incense sticks at the perfect angle to ensure ashes from longer sticks do not miss the plate.

## **Material**

Solid marble

## **Details**

Three different-sized holes for different incense sticks

Five sticks with the scent of sandalwood included

The winning design of the HIDN Design Competition 2023

**Monolith incense holder**

# Wooden animals

*Designed by Steffen Juul*

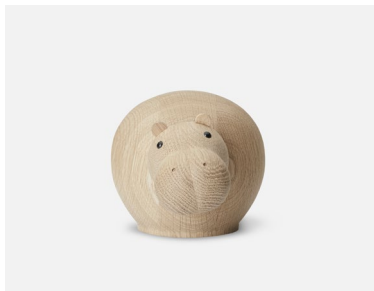

Hibo, Nunu and Rina build upon an old tradition among Danish architects and designers to make expressive wooden sculptures. The three animal families capture the nature of their family members living at the African savannah. The expression of Hibo, Nunu, and Rina can change as the head can be tilted to either side, giving them a charming and wondering look on their face. On its own or together with its family, the animal will bring enjoyment to any room it enters.

## Materials

Solid matt lacquered oak/taupe painted oak

## Details

Can be tilted and detached from the body

# Pidestall planters

*Designed by Emilie Stahl Carlsen*

Pidestall is a series of simple flowerpots created for indoor use. With its minimalistic design combined with the vivid expression of the plants, Pidestall creates an elegant harmony, developed to bring nature inside. The Pidestall makes it possible to create a green oasis in your home, perfect for greenery, colourful flowers, or home-grown herbs.

## Materials

# Around wall hangers

Designed by 201 Design Studio

Simple yet graphic, the Around wall hangers combine sophisticated aesthetics and functionality. Designed with the intention of creating an elegant and practical product, that will stay decorative even when in use. Understated and beautiful.

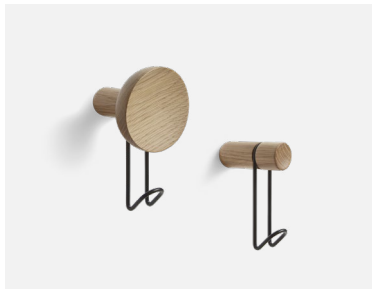

The Around wall hangers are available in two sizes and three colours that can easily be combined and styled in harmonious, clean or artistic compositions on the wall. Choose between a black or satin brass metal hook for all finishes.

## Eileen hook

Designed by *Gustav Rosén*

The hook is designed to create a visual effect as the viewer perceives a body even though it is only the outlines that are visible. Eileen is a surprisingly versatile hook. Clothing can both be hung over the hook and several hangers can easily be suspended in the structure. Each hook has that extra capacity to store more clothes when you have friends or family over.

**Material** Black painted metal (smooth surface)  
**Details** Maximum weight capacity: 10 kg

**Eileen hook**  
150150 Black  
D 100 x W 35 x H 85 MM  
D 3.9 x W 1.3 x H 3.3 "

## Haak hook

Designed by *Rikke Frost*

With its round shape and uncomplicated design, Haak blends aesthetic appeal and practicality. The elegant pairing of a sturdy metal hook with the warmth of oak wood provides a versatile solution for hanging items like hangers, bags and jackets. Its sleek and clean-lined design makes it a perfect fit for hallways or bedrooms, infusing a sense of sophistication.

**Materials** Solid oak and painted metal (smooth surface)  
**Details** Maximum weight capacity: 10 kg

## Illusion hanger

Designed by *Philip Bro*

The Illusion hanger is designed to create an illusion formed by its oblique angles. Challenging your eye. The shape will vary significantly depending on the angle you look at it. Slowly, the Illusion hanger will swing into a diagonal order, which creates an elegant and harmonious group of hangers, presenting the clothes and jackets in a nice way.

**Material** ABS plastic  
**Details** Comes in sets of three

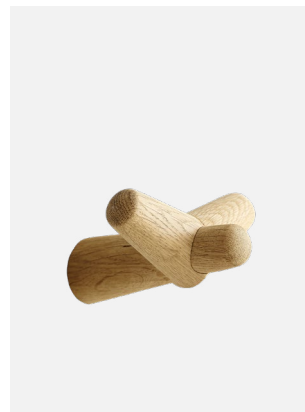

**Illusion hanger**  
150101 Black  
L 425 x D 7 x H 233 MM  
L 16.7 x D 0.3 x H 9.1 "

## Tail wing hooks

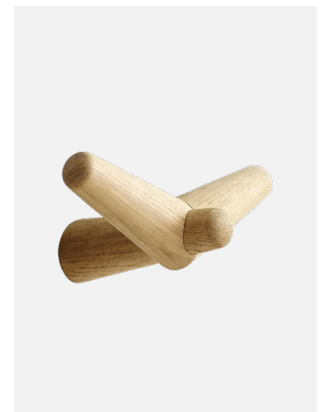

Designed by *Kasper Nyman*

Inspired by the silhouette of airplanes, the Tail Wing hooks echo this theme through their wing-like contours and the shadows they cast. When illuminated from above, these hooks project a shadow reminiscent of an airplane's back-end. Versatile and robust, the Tail Wing hooks are adept at holding a variety of items, from jackets and umbrellas to key chains and purses.

**Materials** Solid white pigmented lacquered oak

# Suspended mirror

*Designed by Oleg Pugachev*

The Suspended wall mirror epitomises simplicity and beauty, crafted to harmonise with various atmospheres as a classic, lifelong piece. Featuring an elegant frame of horizontal oak slats and vertical metal rods, the mirror forms a visually distinct construction that secures the glass while providing an honest, airy aesthetic.

The rods, separated by gaps, end in loops that seamlessly attach to wall-mounted knobs, ensuring the mirror hangs beautifully and remains stable. A contour that allows for elegant suspension while enhancing the mirror's authenticity and purity.

## Materials

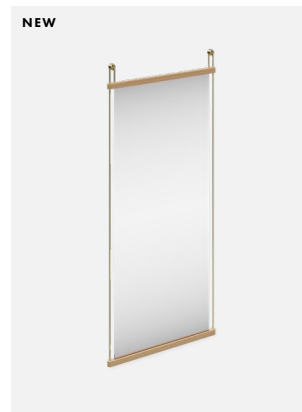

White pigmented lacquered solid oak frame (FSC Mix Credit)  
Satin brass plated metal wires and caps

## Details

Approved for wet areas like bathrooms

W 19.6 x D 0.7 x H 44.8 "

# Logs mirror

*Designed by VOSDING Industrial Design*

The name 'Logs' stems from the designer's source of inspiration, found in the calmness of the Nordic birch forests. Embodying the repetition of numerous trees, this aesthetically versatile piece echoes the identical shape of the mirrors. Simultaneously static yet softly organic. The individual mirrors can be placed at different heights to obtain a wavy effect, allowing you to construct a personalised expression. From artistic creations to balanced appearances.

## Material

Mirror glass

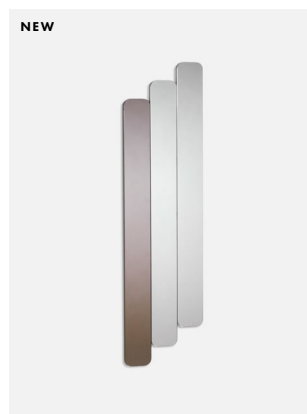

## Details

Combine the sets of three and five mirrors

Can be placed both horizontally and vertically

Two wall brackets included for three/five mirrors

Choose from five different heights for the individual mirrors
